Dear Martin

Department of Sport and Recreation Staff Conference

I am writing to express my thanks for the work you did at the recent Department of Sport and Recreation Staff Conference.

Although many on the organising committee were initially wary of singing being on the program of a staff conference for an organisation involved in sport, they were won over on the day.

The same can be said of the 100 plus participants – most of whom had never sung before let alone participated in a choral exercise.

As a team building exercise designed to break down barriers between people it was highly successful and ensured that the conference got off to a good start.

Many of the delegates had just arrived at the venue after a two-hour bus journey. Your energy and enthusiasm was infectious. The group left the room energised and in high spirits.

I would be happy to recommend your product to other events organisers.

Yours sincerely

Charles Hayne
Event Coordinator
